

A CLOSER LOOK AT AFINION™ 2 ANALYZER

The Afinion™ 2 Analyzer enables fast and easy quantitative determinations of hemoglobin A1c (HbA1c) and albumin-creatinine ratio (ACR). With its compact size and short test times, the Afinion 2 System is ideal for point-of-care testing in physician offices, clinics, community health centers and hospital outpatient clinics. See how it delivers highly accurate results in minutes, in your office, with no delays.

GUIDED TEST PROCEDURE

The analyzer has a touch display with icons and short messages that guide the operator through the test procedure.

FACTORY CALIBRATED

Each Afinion 2 Analyzer is carefully calibrated by the manufacturer and a self-check is automatically performed when the instrument is turned on. No calibration check devices or cumbersome or costly operator calibration is required.

NO MAINTENANCE

The analyzer has no parts requiring periodic replacement.

Patient and control test results are automatically stored in the analyzer memory.

Test results can be printed or transferred to electronic medical records.

When not in use, the Afinion 2 Analyzer is completely silent.
